

WHO WE ARE

We are a coalition of Behavioral Healthcare Providers located throughout the United States working daily to improve the lives of the mentally ill.

Our coalition began in 2006 with the express purpose of fighting what would have been devastating cuts to the Partial Hospitalization Programs. These cuts would have resulted in the closure of hundreds of facilities and the loss of access of care for thousands of the mentally ill citizens.

Through our efforts, these cuts were reduced!

Through this process, we recognized the need for an even more vocal presence in Washington DC.

Our organization is composed of CMHC's located within the communities of the populations they serve - in hospital based Partial Hospital Programs and Intensive Outpatient Programs which provide a step down modality of treatment.
